

Baseball

Rules of baseball

1. Have fun 
2. No other rules 
 - Except don't cheat like the Sox. Bad Red Sox!

Other sports

- the one with that flat round thing 
- the one with the concussions 
- the one with the bouncing 
- the one with the grunting 
- the one with the small ball and the smaller hole 
- the one where you knock things down 

This is a smaller header

Now I am going to *try* a manual line

break. That was **fun**.

This is an even smaller header

This is a link to my [website](#).

This header is yet even smaller

This is just old regular text.

These headers are getting awful small

This is the start of a book:

 *"It was the best of times, it was the worst of times..."*

Almost not even a header anymore

```
mean(my_data)
```

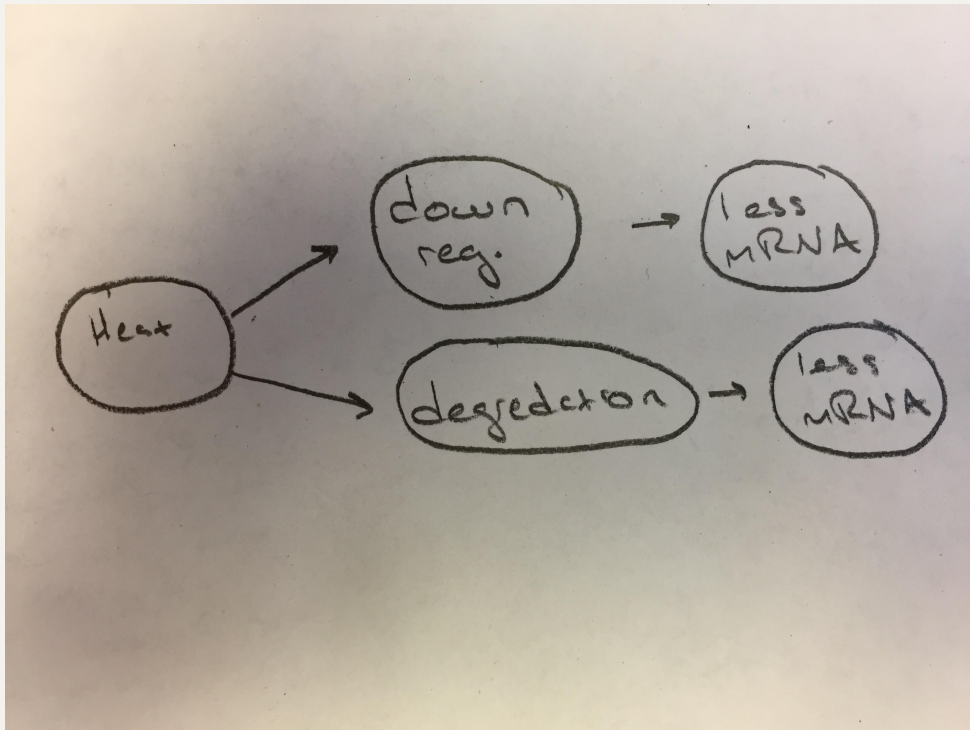

This is an inline block code `mean(my_data)`.

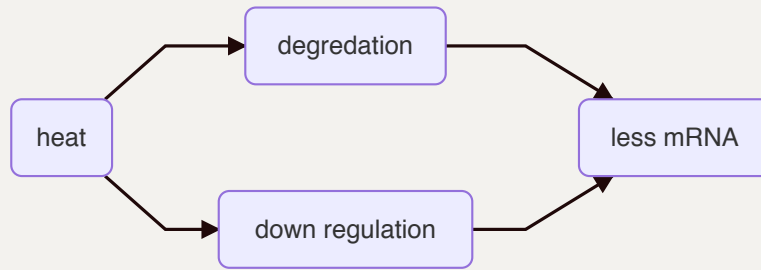

```
# this is an r code block  
mean(stuff)
```

This is math in-line $E = mc^2$. This is a math block below.

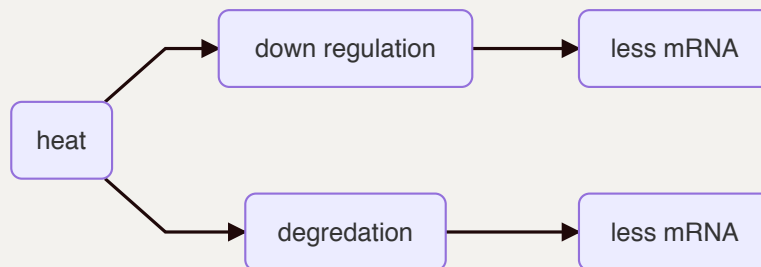

$$E = mc^2$$

LOCATION	# OF 🐼	# OF 🐋
🌊	0	43250982
🌴	0	0
🗼	179340	0

I decided to change the flow chart a bit to get because it is really the same result.

But if I wanted it to look the same I could do this.

- WOW an italic emoji 🤔 !
- This is a bold emoji 🐳
- This is a regular emoji 🐳
- The bolding doesn't do anything 🤔
